At the referenced review meeting, it was determined that the CJ-7 Jamboree Package (82CJ-808) needed to be modified to reflect the following:

Two items of optional equipment are to be included in the package, console and tilt wheel. Also, the optional items which will not be available because they conflict with the package are listed. Air conditioning is specifically excluded because the location selected for the Jamboree commemorative plaque precludes the installation of the ash tray required with A/C. The spare tire cover with the special imprint will only be supplied for the standard polyspare tire and, therefore, conventional spare tires are also excluded.

Please replace the equipment chart supplied with 82CJ-808 with the attached exhibit.

S. E. Gifford
