Jeep CJ Trim Codes (1981-86)

by: [Hayden Olenik](#)

This data has been compiled from the Jeep Factory Parts Manual for 1981-86. There are some inconsistencies in the manual however, so if you find anything that appears to be wrong please e-mail [me](#) and let me know.

On your VIN tag under your hood on the firewall (below the brake master cylinder) there is a three digit number on the second row, right side. The first digit is the trim color, the second is the seat style, and the third is the material code.
